### **Modern Slavery And Human Trafficking**

Modern slavery is a heinous crime and a morally reprehensible act that deprives a person's liberty and dignity for another person's gain. It's a real problem for millions of people around the world, including many in developed countries, who are being kept and exploited in various forms of slavery. Every company is at risk of being involved in this crime through its own operations and its supply chain.

At Company, we have a zero-tolerance approach to modern slavery and are fully committed to preventing slavery and human trafficking in our operation and supply chain.

We fully support the government's objectives to eradicate modern slavery and human trafficking.

We call upon all suppliers we engage with to influence their global supply chains by improving transparency and accountability; and together we can help the government eradicate the injustice and brutality of modern slavery and human trafficking.

We have taken concrete steps to tackle modern slavery and have set out the actions that we have taken to understand all potential modern slavery risks related to our business, and to implement steps to prevent slavery and human trafficking.

Company operates the following policies for identifying and preventing slavery and human trafficking in our operations:

We encourage all employees, customers and suppliers to report any suspicion of slavery or human trafficking without fear of reprisal. There are formal confidential channels in place should this be required.

Code of Conduct - our code encourages employees to do the right thing by clearly stating the actions and behaviour expected of them when representing the business. We strive to maintain the highest standards of employee conduct and ethical behaviour when operating abroad and

### **Sourcing directly from Artisanal and small-Scale Mining**

Artisanal and small-scale mining (ASM) refers to formal or informal operations by individuals, groups, families or co-operatives that can involve up to hundreds of thousands of miners. ASM usually uses little capital and a lot of labour and is carried out with minimal or no mechanization (although it can involve small and fully mechanized operations).

The exact definition of ‘artisanal’ and ‘small’ mining may be stated by national legislation and categorised according to, for instance, a mining organization’s volume of production of ore or mineral, the size of its concession or the level of mechanization. Using best endeavors means acting honestly, reasonably and with a positive effort to perform the relevant obligation. Under this provision, it means a company’s efforts to reduce or avoid the risks of harmful practices in ASM (including human rights abuses, unsafe work and environmental harm).

Vulnerable groups are characterized by their higher risk and reduced ability to cope with shock or negative impacts. Their vulnerability may be based on socio-economic condition, gender, age, disability, ethnicity or other criteria that influence people’s ability to access resources and development opportunities. It is always specific to the particular location and time.

The company shall never source any material directly from Artisanal and small-Scale Mining and in case if any such material sourced, Regularly assess risks outlined in COP 7 areas (including impacts to biodiversity), and seek opportunities for ASM community development in line with COP 10 (Community development) access the risk of unsafe working condition and environmental impact.

The company shall support ASM for risk mitigation and business development plan for the ASM and the company always have a fair commercial term.
